FULL STACK DEVELOPER

Full stack web developer with a background in music education from the University of North Texas. Recently earned a certificate in full stack development from SMU coding Bootcamp while teaching full time. In addition to the bootcamp, excellent communication, teamwork and time management skills from my time as a public school teacher. Experience in collaborating and working to achieve a goal. Eager to combine background in teaching with my technical skills to add value as a team member.

TECHNICAL SKILLS

React.js, Redux, Javascript, MongoDB, SQL, Bootstrap, JQuery, Node.js, Express.js, HTML5, CSS3

PROJECTS

Sneakerheads || Live Link: <https://sneaker-heads.herokuapp.com>

Social media sight for those who want to sell, trade and collect shoes.

Full Stack application using React.js, Node.js, and MYSQL,

Github: https://github.com/hugo2211/Sneaker_Head

Google Books App || Live Link: <https://react-google-books-app-1.herokuapp.com>

App designed to allow a user to search google books, saving them and adding them to their collection

Uses google oauth2, React.js, Node.js, MongoDB and the Google Book API

Github: <https://github.com/Mark-Mulligan/google-book-search>

Outdoor Adventures || Live Link: <https://smu-project-outdoor-adventures.herokuapp.com/>

App made using the national parks api, it allows users to search all national parks, access additional information about each park, and save parks to their profile.
